SPECIAL SESSIONS

COORDINATORS

Federico Tamarin

Francesco Picariello

Marco Genovese

Marco Crescentini

Gian Piero Gibiino

The IMEKO World Congress 2027 will be an exceptional event for sharing the latest advancements and concepts across various research areas related to the IMEKO TCs.

The Congress is also committed to promoting excellence and innovation through Special Sessions that focus on specialized and emerging topics related to the main Congress theme. These sessions provide conference attendees with a unique perspective on research topics that are not typically covered in the standard tracks. It is important that these sessions differ significantly from the main tracks. Special attention should be given to the scientific relevance, coherence, and originality of the proposed topic, as well as the qualifications and experience of the organizers and potential authors.

PROPOSAL SUBMISSION

Prospective organizers of a Special Session at the IMEKO World Congress 2027 are required to carefully follow a set of guidelines to ensure consistency and quality across proposals, as detailed on the official webpage

<https://imeko2027.org/call-for-special-sessions/>

Each individual may serve as (co-)organizer of up to two Special Sessions, and each session can have a maximum of three organizers. In order to promote diversity and international collaboration, it is strongly recommended that organizers come from different institutions and, preferably, different countries. Further details are available on the website.

PROCEEDINGS AND SPECIAL ISSUES

Accepted papers will be published in the conference proceedings on the IMEKO website in open-access format. A selection of papers will also be recommended for further publication in peer-reviewed journals as extended versions.

CONGRESS VENUE - RIMINI

Rimini offers the perfect blend of a territory steeped in history, a splendid and diverse inland area, modern accommodation and entertainment facilities, simple and accessible logistics. Strategically located in the centre of Italy, Rimini is easily reached both from within Italy and abroad.
